

## Adjustable Support Pads (ASP-TD Range)

### Weight Tolerance Test Data Sheet

Adjustable Support Pad Description		 H 65-100mm
Height Adjustment	65-100mm	
Material	Polypropylene	
Diameter of Head Piece	120mm	
Diameter of Screw	73mm	
Diameter of Nut	106 x 106mm	
Diameter of Base	208mm	
Conditioning	23±2 °C / 50± 5%	
Conditions of Test	Room temperature	

Test Equipment	Dynamometer Instron model 5500R graduated from the centre
Test Method	The support pad is subject to compression between two rigid plates until the maximum load.
Rate of test	5mm per minute

Test No.	Height Adjustment mm	Maximum Load N	Deformation at maximum load
1	100	18118	8.4
2	100	17264	8.5
3	100	17389	8.6
4	100	17399	9.2
5	100	16947	8.3
	Average value	17423 N	8.6mm
	Standard deviation	429 N	0.3mm
	Variation	2%	4.1%
